For its 14th edition HPCI India continues to define standards in Home and Personal Care Ingredient Industry

Recognised as India's flagship platform for the personal and home care ingredients sector, HPCI, the country's leading exhibition and conference, was successfully held on 27 and 28 January 2026 at the Jio World Convention Centre, Mumbai. The event brought together ingredient suppliers, product developers, applied scientists, manufacturers, and industry leaders, all working at the forefront of consumer product innovation and shaping the next phase of growth for the sector.

Visitor Profile

Purpose of Visit

Sustainability is the key driver shaping the industry's future. Formulations are moving toward simpler, easy-to-use blends that are sustainable and gentle on skin. HPCI India offers a valuable platform to engage directly with customers, whose curiosity and hands-on interest make the show floor truly impactful.

AMRESH KUMAR SINGH

Business Head – Personal Care & Home Care (South Asia), Clariant India Specialty Chemicals Ltd

With growing demand for personalised skincare and high-performance sun care, formulations must balance safety, regulation, sustainability, and technology. As a company consistently represented here, we value HPCI's continued relevance to these priorities.

DR GURUBASUVARAJA KM

Head: Regulatory Affairs, L'Oréal

HPCI India 2026 showcased strong scientific depth, with a wide range of hair care and hair colour ingredients, advanced actives, and microbiome-focused innovations. Direct engagement with suppliers and formulation experts reinforces its industry relevance.

HETAL SALGAONKAR

Senior Scientist, Godrej Consumer Products Limited

Innovation Zone Awards

The Innovation Zone at HPCI India spotlighted the critical role of raw material innovation in shaping the future of the Home and Personal Care industry. Created as a dedicated platform, it recognised breakthrough ingredients that drive formulation performance, differentiation, and competitive advantage.

Addressing the industry's growing need for transparency, the zone showcased new and recently launched materials from the past six months, giving formulators and professionals a curated view of emerging ingredient innovations. It served as a focused discovery space, enabling direct engagement with the science and potential behind next-generation cosmetic ingredients.

WINNER
TRI-K Industries & Gravity Chemicals & Specialties LLC for EverBond® Rebond, Repair & Reinforce

1st Runner Up
